

Red area is the bleed area that will be cut away - Read Instructions

art area

Bleed Line

Cut Line

INSIDE LEFT

(Inside panel of the front panel)

INSTRUCTIONS PLEASE READ!

BLEED INFORMATION:

It is very difficult to print exactly to the edge of a sheet of paper/card, to achieve this it is necessary to print a slightly larger area than is needed and then trim the paper/card down to the required finished size. Images, background images and fills which are intended to extend to the edge of the page must be extended beyond the trim line to give a bleed. Extend your background photos, colors etc into the red area to ensure edge to edge printing on the finished cut product.

INSIDE RIGHT

(the inside panel of the interior flap. This is where the CD cleartray sits.)

Blue area is the safety area, keep important text and images out of this area to avoid being nicked by the cut.
